HD STEEL

DOOR SERIES

- **A Strength** Superior rust inhibition and polyurethane foam core.
- **B Durability** Top quality 24-gauge galvanized steel construction offers superior durability and tested performance.
- **C Security** Solid reinforcements ensure that cylindrical hardware is mounted securely on steel-edge doors.
- **D High Profile** Steel Mark® doors feature high definition panels in a wide variety of panel designs.
- **E Construction** Steel Mark series carry wood-edge door construction.
- **F Fire Ratings** 20-minute fire rating option is available on select Steel Mark doors.

Steel Mark® HD Plus Entry Series

Executive® Series

Steel Mark HD Plus and Executive series offers a 24-gauge steel, wood-edge construction with 1 1/8" wood stiles. All Steel Mark doors feature polyurethane cores for superior thermal performance.

hd steel doors

Providing a portfolio of products ensuring the right HD Steel door for your project. The polyurethane foam core offers superior thermal performance and added door strength. Beautiful, strong, secure.

BELMONT

FIBERGLASS DOOR SERIES

- **A Grain** Multiple grain options are available in low maintenance fiberglass – smooth, oak, mahogany and rustic textures. Belmont's ultra smooth finish features a unique brush stroke surface that's ideal for painting.
- **B Durability** Top and bottom rails are constructed from rot free composite material.
- **C Security** Door stiles are constructed with engineered 2" laminated strand lumber (LSL) hinge, and 4" LSL latch stiles.
- **D Panel Profile** Belmont features distinctive and deep high definition moulded door panels.
- **E Construction** Polyurethane foam core combined with engineered wood used in stiles provide superior insulation value and structural integrity.
- **F Fire Ratings** 20-minute fire rating option is available on select Belmont fiberglass doors.

Smooth Grain

Oak Grain

Mahogany Grain

Mahogany (Rustic)

Lock Side 4" Stile

Hinge Side 2" Stile

Stiles constructed from LSL material are stronger and more rigid than traditional wood stiles or laminated veneered lumber (LVL). The patented LSL manufacturing process creates a door stile that resists bowing and warping.

belmont doors

Extensive style, deep panel designs, selection and grain texture options make the Belmont an ideal choice for any entrance. This 100% North American product mimics the grain, texture and construction of a handcrafted hardwood door. Molded fiberglass skin, and polyurethane foam core will provide superior thermal performance, strength and durability.

Warranty	25 Years	Limited Lifetime	Limited Lifetime

Clavos are hand forged from metal to create an authentic old world look that enhances the appearance of the rustic door.

Composite Rails
The rails are made out of rot free composite material.

Stronger Stiles
LSL is engineered wood that is free of knots or inconsistencies found in other wood products. The patented manufacturing process increases product strength while resisting bowing, twisting, and shrinking.

Resource Efficient
LSL uses 99% aspen and 1% birch trees — resources that, in the past, were considered unusable for these types of applications. In addition, our LSL technology is independently certified to the Sustainable Forestry Initiative® (SFI) Standard and conforms to the ISO14001-2004 Environmental Management System Standard. LSL does not contain formaldehyde-based adhesives.

HARBOUR CRAFT®

PREMIUM FIBERGLASS DOOR SERIES

- **A Grains** Each mould is made with a select piece of cherry or douglas fir to guarantee the authentic look and feel of real wood.
- **B Durability** Enjoy the low maintenance fiberglass along with unsurpassed durability.
- **C Security** 4" LSL stiles run the length of the door to allow for top-quality door hardware.
- **D High Profile** Available in three distinctive beading options – Traditional, Rustic and Craftsman.
- **E Construction** Featuring true square edge design and wider stiles to provide enhanced security, durability and strength.
- **F Glass Frames** Matching fiberglass door lite frames available – a durable and beautiful finishing touch.

Cherry Grain
(Traditional Panel Beading)

Cherry Grain
(Rustic Panel Beading)

Craftsman Fir Grain

Square edge construction offers an attractive wood door appearance. 4" engineered stiles made from laminated strand lumber (LSL) run the entire height of the door on both the hinge and lock side. This provides high resistance against thermal bowing and offers added security.

harbour craft doors

The beauty of a wood door without the maintenance. Harbour Craft fiberglass doors mimic the grain, texture and construction of a handcrafted hardwood door. The process starts with the highest quality hardwoods, just like a real wood door. To guarantee the authentic look and feel of real wood, a select piece of cherry or fir is used to make each mould. Engineered with one of the thickest fiberglass panels in the market; Harbour Craft doors provide additional stability and resistance to bowing and twisting.

OPTIONAL GLASS BACKINGS AVAILABLE FOR ALL IRON COLLECTIONS
(Additional costs & lead times will apply)

Each available glass option provides a different level of privacy starting with our Clearlite Glass for those applications where privacy is not a concern, to the opposite end of the spectrum with our Mistlite Glass for the ultimate in privacy.

TRANSOMS AVAILABLE BY SPECIAL ORDER

arteferro glass

The art of wrought iron has been in existense for centuries. Wrought iron is known as one of the most elegant metals. Each intricate piece in the Arteferro collection has been individually crafted to provide unmatched class and style. Sealed between two panes of tempered glass each design will add beauty and security to every home.

TRU VIEW®

RAISE LOWER & TILT MINI BLINDS

Tru View Mini Blinds are a dust-free solution that is built in between clear insulated glass. Blinds can easily be adjusted to allow just the right amount of light and privacy, so you can enjoy the privacy without the cleaning. And with no more cumbersome cords you can rest easy knowing that your blinds are as beautiful as they are safe for children.

Blinds shown are open.

3-POINT SECURITY AUTOMATIC DOOR LOCK

European technology in a North American Lock.

By simply closing the door, the upper and lower 3/4" latches will instantly engage.

Engaging the 1" deadbolt by turning the key from outside or the knob from inside, will block the top and bottom latch bolts, to make it a secure 3-deadbolt locking system!

- Intuitive North American locking function. No lifting of the handle required to engage locking points.
- 90 degree thumb turn to engage 1" central deadbolt function.
- The tapered latch bolts always engage the keepers upon closing of the door.
- Better security with three locking points securing the door.

At Tru Tech Doors, protecting our environment and its natural resources is a commitment we make to ourselves and to our customers. We believe it is our obligation to ensure products remain energy efficient by implementing corporate policies that reflect responsible environmental standards. Our fiberglass products achieve greater energy efficiency and significant savings in precious natural resources. It is just one example of the green side of Tru Tech.
